MOKSH

FIRST TERM EXAMINATION 2024–2025 CLASS 12 – ENGLISH CORE

SECTION A 80 MARKS Reading Skills Q1 Read the following passage carefully: (22 Marks) Often people are getting news online as the convenience and accessibility of online news (1) is difficult to compete with. Physical newspapers are typically large, need to be folded and aren't always free, making (2) them an overall hassle. With virtual media outlets being available to nearly everybody at the click of a button, it comes as no surprise that it's grown to be a dominant form of news consumption. However, it's important for readers to consider exactly what they're consuming when getting their news through an app vs a newspaper, namely the influence of an algorithm. A search algorithm is a set of rules made to put forward content the reader is more likely (3) to engage with and filter out what they will ignore. Based on one's viewing history, an app or service determines what kind of content the user enjoys, and then recommends similar content from that point onwards. Algorithms give the viewer what they want, that's undeniable, but it's Digital media experts warn readers to be cautious of how an algorithm processes content. (4) These systems show a reader more of what they want, but in the process, they block out any pieces that aren't in sync with their observed beliefs for the sake of customer service. The result is a person who is always given the same type of content, rarely venturing outside of their own There is, fortunately, a way for readers to still get their news without risking the (5) entrapment of an algorithm: classic print newspapers which are not limited by any ruleset constantly tailoring the words offered to the reader. News in print needs to satisfy every type of reader with only one copy, allowing it to offer a wide scope of topics. Printed news offers its viewership more freedom over what they choose to read. While an algorithm purposely chooses and narrows potential news, a physical paper's (6) diversity its news a more exploratory nature. Taking the time to engage with every part of a physical paper put a variety of subjects, views and information on display for readers. (7) It'd be naive to believe that print newspapers are completely free from bias or a certain degree of filtering. Still, a physical newspaper will almost never be as narrow in scope as the suggestions of digital media outlet will be. Answer the following questions, based on the above passage: (i) Online news is becoming popular because it's (A) Economically Affordable (C) Less cumbersome (B) Readily accessible (D) More interesting The phrase 'venturing outside of their own viewpoints' in para 4 most nearly means (%) Stepping into someone's shoes (B) Challenging others' opinions (C) Combining traditional beliefs with modern ideology (D) Moving away from one's personal opinion (iii) Complete the sentence with evidence from the text: Online readers are unaware that the news that they read on a digital platform is (iv) Share evidence from the text in about 40 words to support the view that though algorithms give 2 the reader what they want to read, they are also the problem. Why according to the writer is reading the news online becoming increasingly popular? (vi) State two reasons in support of why a newspaper is a better source of news than online apps.

With From the passage we understand that the writer concedes that newspapers too are With The passage suggests that the reader while reading news online must be (A) Focused (B) Discerning (C) Indifferent (D) Attentive (A) Focused (B) Discerning (C) Indifferent (D) Attentive (D) Attentiv	
(A) Focused (B) Discerning (C) Indifferent (D) Attentive (E) Read the headlines A – E given below: (A) NEWSPACERS – FREDOM OF SPEECH (B) INTERNET – THE NEWS ENTERTAINER (C) ONLINE-NEWS – A EIMSTED PERSPECTIVE Identify the option that displays the headlines that do not correspond with occurrences in the passage. Read the following passage carefully: (I) In a rapidly changing world, transition from school to work has become more complex and challenging for young people as finding employment is difficult for the youth. If academic studies may be an excellent path to successful career and lives, other types of education like Vocational Education and Training (VET) programmes are more than ever being emphasized by the governments globally to support work-ready professionals with relevant on-the-job experience to match the needs of various industries. (2) According to the National Skill Development Corporation (NSDC), India aims to skill 400 million people by 2025. Vocational training programmes, such as Industrial Training Institutes (ITIs) provide training in fields such as engineering, health care, hospitality, construction and more. According to NSDC estimates, India is expected to witness significant job creation. With the help of this training, opportunities for self-employment have been enhanced. As of July 2021, over 1.5 million candidates have been placed in various jobs after acquiring vocational training entrepreneurs with the knowledge and skills required to establish and operate their own businesses. The NSDC states that out of the 12 million people entering the workforce in India initiatives. Vocational training plays a significant role in India by addressing the skill gap, improving employability, fostering entrepreneurship, and driving economic growth. This contributes to the nation's overall development and prosperity. Answer the following questions, based on the above passage: (ii) Why are governments promoting Vocational Education and Training programmes? (iii) Infer why the National Ski
